## Reflections by Our Club President

### Community and Rotary

Most of us tend to think of our community as the place where we live. As Rotarians, that definition is certainly true, but it is also broader. Within Rotary we have several communities that define us. Our Avenues of Service structure includes four communities.

- Vocational Service helps to define us by our occupation or profession. Within this context we are expected to uphold and exceed values and standards as they apply to what we do for a living.
- We are further defined by Club Service. This Avenue of Service defines us by how we contribute and participate within our “Club” community. In other words, what we do within our club strengthens and enhances it.
- Our Community Service community defines us by what we do as Rotarians to make Snohomish and its environs a better place to live.
- Finally, the avenue of International Service takes us beyond our local borders and allows us to participate in the global community and helps define us by what we do to make the world a little bit better.

“Service Above Self”, the motto of Rotary, takes on many forms. It can take the form of heading a team of doctors that travel to lesser developed parts of the globe to perform cleft-palate surgery at no cost to the patient and his or her family. And it can take the form of selling raffle tickets at a weekly meeting.

These forms of outreach, as disparate as they are, make Rotarians what they are: members of many communities. All of which define us as members of the Rotary Club of Snohomish.

## Spring and Summer: Its Berries and Snow Cones Time

Have you had the opportunity to tell people about our annual berry sale, and then be at one of the delivery sites? Have you had the opportunity to be in our snow cone trailer during KLaHaYa Days and at the Big Foot Soccer Tournament? **If you have not**, you are now going to get to be a part of those opportunities.

**Lynn Hurley**, this year’s Berry Committee Chair, has been in contact with Mike and Jean’s Berry Farm in Mt. Vernon. He is coordinating the pick-up sites for the packaged strawberries, raspberries, and blueberries.
